HENRY A. MACOMB, Architect.

March 8th 1887.

Hon. Daniel M Fox.

Dear Sir. Before Mr McCaul can commence work on the Boiler room it will be necessary to remove the small engine, now used to pump water from the artesian well. We know of no use that can be made of this engine and would advise you to sell and immediately remove it.

It should advertized immediately and awarded to the highest bidder. enclosed please find form of advertizement, We have omitted the name of Maker of Pump which you can obtain from Mr Jane James.

Mr McCaul has just left here with three copies of Contract and Bond. We have read over one of them and found it identical with with our "letter press" Copy.

We think it would be advisable, to advise the Director of the Mint that the Contract with McCaul has been drawn in accordance with the papers submitted to him and which he now has.

Resp.
